FREEDOM OF CHOICE SCHEME OCTOBER 2009

At the latest Modern Motocross Committee Meeting (August 09), a Freedom of Choice (FroCh) arrangement was agreed for the month of October 2009. This is a trial period to determine the merits of the system.

Certain parameters have to be put in place in order for the office to administer the system. Therefore, the FroCh will operate as follows:

- Any AMCA 'A' or 'D' licence holder may opt to ride outside of their designated event by paying a premium of £10 on top of his usual £18 /£29 entry fee.
- The £18 /£29 entry fee will be split in the usual way with the club share going to the club which that rider was originally due to ride with.
- The additional £10 will go to the club where the rider chooses to ride.

Entry sheets will be sent out in the normal way, an additional sheet will be attached for riders wanting to take advantage of the FroCH system. The rider must sign the sheet at club, pay the £28/£39 fee and stipulate which event he wishes to ride at. He will also be required to tick a box if he wishes to be transferred back to his home Group meeting in the event of there being insufficient room to accommodate him.

In the event of cancellation or there being insufficient room to accommodate him, an admin charge of £2 will be deducted from the £10. However, if the rider ticks to be put back into his home event he will not be charged an admin fee off the £10.

Late entries will remain as the current system for home group riders. Riders wishing to take advantage of the FroCh system must pre enter through their club and office and cannot late enter.

Travellers who accompany Championship riders (or vets/ two stroke or sidecars) will be required to pay the additional £10 as they will be riding out of group and will be accepted if room allows.

If a rider selects a FroCh option and elects to pay £10 to enter an event outside of his Group's choices and the Group event subsequently cancels, his home Group riders may then be entered into the same event as him, they would be able to enter at the normal £18 /£29 entry fee as they had been directed to this event by the office. The FroCh rider will have paid an additional £10 to ride the event, this will not be refunded. The £10 payment has secured the rider his entry before any other transferred riders are entered; therefore his £10 surcharge has given him priority over other out of group riders.

Yours sincerely,
